KENWORTH T680

VIN 429063

Some unique features of this truck are its Cummins engine, 76" raised roof sleeper and AG 400L suspension. The 76-inch raised roof sleeper is the ultimate driver's truck. This is the most spacious, modern and elegant interior experience on the road. Whether you are working or just relaxing you will enjoy spending time in this truck. The Kenworth AG 400L suspension provides the driver with a smooth and comfortable ride the whole way through. The suspension is virtually maintenance free with no periodic adjustments or lubrication required. This provides tremendous value and a stress free, easy to use service for our customers. The Cummins engine is known for its horsepower and torque a truck needs in order to tow a heavy load. When maintained properly, trucks with a Cummins engine can expect a long-life span as well. Cummins engines can be found in many vehicles from pickup trucks to 18 wheelers and more. For more than 100 years Cummins engines have produced at a high level. The T680 is the most evolved aerodynamic long-haul tractor of its time. Manufacturing and design engineers worked closely together during product development of the Kenworth T680. This allowed both engineering departments to learn from each other and position the Kenworth T680 as the best line-haul truck on the road. Two examples of their success were advanced doors and windshields. Drivers will notice more consistency and precision when closing their doors in the T680. These doors allow for a more tight-fitting cab which makes for a comfortable and quieter work environment

PHOTOS ARE COMING SOON.
APOLOGIES FOR THE WAIT.

Further Vehicle Details
